(54) Title: MEETING SURVEY SYSTEM

Fig 9A

(57) Abstract: A method of communicating survey questions to a list of participants; the list of participants obtained by including a proxy email address as a participant address in a list of participant email addresses whereby a web enabled server receiving an invitation addressed to the proxy email address also receives the list of participant email addresses; the web enabled server subsequently transmitting survey questions to the participants identified by the list of participant email addresses. Also disclosed is method of assembling programme code for execution on a platform. Also disclosed is a portal which provides a facility for additional communication to be added to meeting results. The communication will be altered to the specific preferences of each recipient and will be added to any Communication that is to be sent by MeetingQuality within the specified timeframe.
