(54) **Title:** SEAL RING FOR SEALING A CONTAINER

**FIG. 3**

(57) **Abstract:** A seal ring (14) for sealing a container (12). The seal ring has a base ("30) and a longitudinal axis (B) extending therethrough, a radially outer portion (32) and an inner seal (36). The radially outer portion has a locking band (34) that is configured to lock beneath an external engagement element (28) of a container (12) so as to secure the seal ring thereto. The inner seal is configured to be biased into sealing engagement with an inner finish surface (29) of the container. The seal ring may be part of a package (10) that also includes the container having a finish (22) that comprises a sealing lip (26), the external engagement element (28), and an inner surface (29), and a foil (16) sealingly and removably coupled to the base of the seal ring.
