(54) Title: HIGH FUNCTIONALITY ISOCYANATES AS POLYMER POLYOL STABILIZERS AND THE POLYMER POLY-
OLS PREPARED FROM THESE STABILIZERS

(57) Abstract: A high functionality macromer that is the reaction product of (1) a polyisocyanate having an NCO group content of
about from about 10% to about 33% having a functionality greater than 2, (2) at least one alcohol with reactive unsaturation, and (3)
a hydroxyl group-containing polyether having an OH number of from 9 to 60 and a functionality of from 1 to 6 is used to produce a
pre-formed stabilizer that is used to produce a high solids content polymer polyol.
