(54) Title: APPARATUS AND METHOD FOR BUILDING MODELING TOOLS

(57) Abstract

Invention for building a modeling tool that includes a meta model that has a semantic registry (Figure 2 #220) and a meta data manager (Figure 2 #240), an object/property interface (Figure 2 #260), and an object/property factory registry. The object/property factory registry is coupled to the meta model and the object/property interface. The semantic registry includes at least a predefined set of semantics (Figure 2 #230).
