ABSTRACT

The present disclosure relates to an information display method and apparatus, an electronic device, and a storage medium. The method includes: displaying an image creation page; where the image creation page includes an image generation option, a canvas area, and a layer display area, and the image generation option includes a text-to-image option and/or an image-to-image option; in response to a trigger operation on the image generation option, displaying a first image in the canvas area, and displaying a layer where the first image is located in the layer display area, where the first image is an image generated by an image generation model.
