(54) **Title: LED TUBE LAMP**

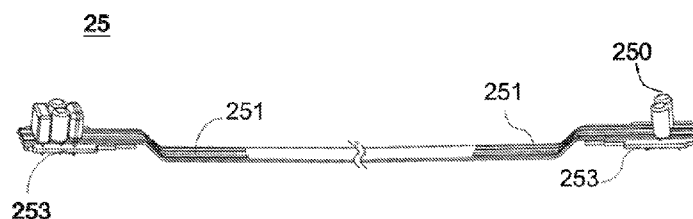

Fig. 35

(57) **Abstract:** An LED tube lamp includes a tube (1), an LED light strip (2) disposed inside the tube (1) and an end cap (3) attached over an end of the tube (1). A power supply having a hard circuit board (253) is provided inside the end cap (3); at least one light source (202) is mounted on the LED light strip (2) and electrically connected with the power supply by way of the LED light strip (2) and the hard circuit board (253). The LED light strip (2) includes a bendable circuit sheet (251) being longer than the hard circuit (253) board, and the bendable circuit sheet (251) and the hard circuit board (253) are adhered to each other to form an assembly (25).
