

ABSTRACT

Disclosed are a method and apparatus for publishing a post, and a storage medium, belonging to the field of information processing technologies. The method includes: in response to receiving a first publish request from a first terminal, first determining, based on location information of the first terminal, whether the first terminal is positioned in a delimited area; and publishing, based on a topic, a post carried in the first publish request only when the first terminal is positioned in the delimited area. That is, the embodiments of the present disclosure provide a method for publishing a topic-related post.
