

ABSTRACT

GAS SUPPLY DEVICE, DEVICE FOR CONTROLLING INSIDE AIR, AND
REFRIGERATION DEVICE FOR CONTAINER

5

In a gas supply device (30) that supplies gas to a target space (S) through a filter unit (75), the filter unit is composed of a filter box and an air filter (76) housed in the filter box, and the air filter (76) is a filter having a filter substrate (77a, 77b) made of a membrane filter and a fibrous coating layer (78a, 78b) covering a surface of the filter substrate (77a, 77b) through
10 which air is sucked.
