

ABSTRACT

BODY ASSEMBLY OF VEHICLE, AND VEHICLE

A body assembly (100) of a vehicle, and a vehicle. The body assembly (100) of a vehicle
5 includes: a body main unit (6), wherein the body main unit (6) is provided with a mounting
opening (61); a battery pack (5) shielding the mounting opening (61), wherein the battery
pack (5) is configured to form at least part of a floor of the body assembly (100); and a
sealing assembly (7) and a front surrounding plate (621), wherein in the length direction of
the body main unit (6), the front surrounding plate (621) is located on the front side of the
10 sealing assembly (7), the front surrounding plate (621) is connected to the sealing assembly (7)
to form an annular structure, and at least part of the sealing assembly (7) and at least part of
the front surrounding plate (621) are both located between the body main unit (6) and the
battery pack (5) so as to seal a gap between the body main unit (6) and the battery pack (5).
