Arrangement of electromagnetic transducers
1

FIG. 9

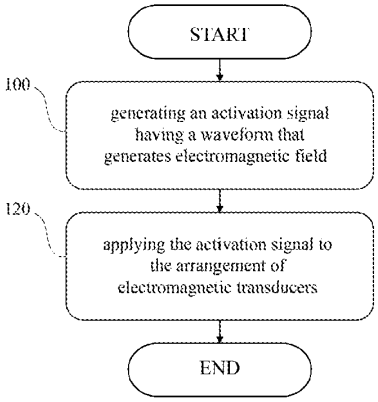

START
100
generating an activation signal having a waveform that generates electromagnetic field
120
applying the activation signal to the arrangement of electromagnetic transducers
END

FIG. 10

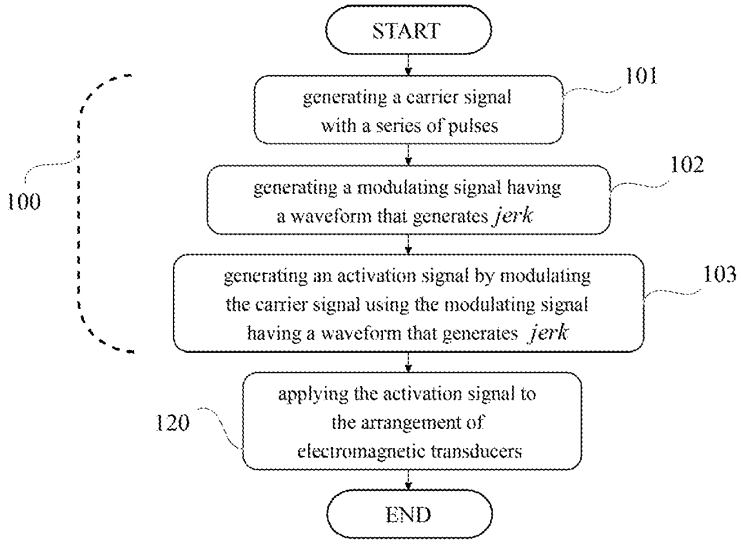

START
generating a carrier signal with a series of pulses
101
generating a modulating signal having a waveform that generates *jerk*
102
generating an activation signal by modulating the carrier signal using the modulating signal having a waveform that generates *jerk*
103
100
applying the activation signal to the arrangement of electromagnetic transducers
