(54) **Title**: PROCESS FOR THE PREPARATION OF A PEPTIDE POWDER FORM

(57) **Abstract**: The invention comprises a process for the production of a freely flowable homogenous powder form of a GLP-1 peptide analogue. The process is characterized in that a solution of the peptide analogue in an aqueous organic solvent that is preferably directly obtained from the chromatographic purification process, is subjected to a spray drying process and recovered in the form of a freely flowable homogenous powder.
