(54) Title: CHARGING STATION WITH ARTICULATING PANELS

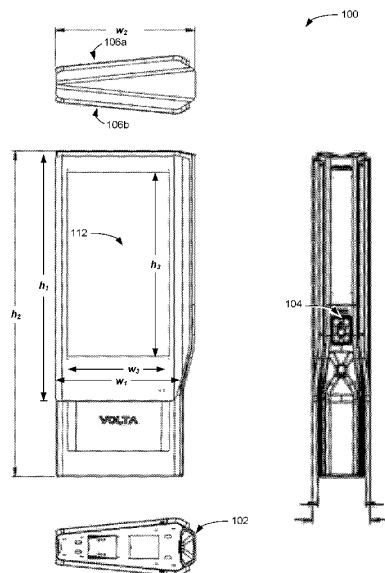

FIG. 1

(57) Abstract: An electric vehicle (EV) charging station includes a frame and a panel having an interior surface and an exterior surface. The panel is hinged to the frame so as to articulate the panel away from the frame. The panel includes a display facing outwardly from the exterior surface of the panel and mounted on the interior surface of the panel. The EV charging station further includes a computer accessible when the panel is articulated away from the frame, the computer including one or more processors and memory, the memory storing instructions for displaying content on the display.
