(54) **Title:** DEVICES AND METHODS OF COMMUNICATION

FIG. 2

(57) **Abstract:** Various aspects of the present disclosure relate to devices and methods of communication. In one aspect, a first device may determine first time or resource information of a first message for paging the first device based on one of the following: second time or resource information associated with wake up or synchronization of the first device, or a set of resources for a control signaling for the first message. Based on the first time or resource information, the first device may receive the first message from a second device. In this way, a paging for an A-IoT device may be received.
