

ABSTRACT

Center cargo tanks 41, 42-45, and wing cargo tanks 61-65, 71 and 72 are cargo tanks for reserving cargo oil. In
5 dependent from the cargo tanks, common spaces 13, 51, and 81 are provided for either mooring equipment for a floating production storage and offloading facility or a reinforcing member for the mooring equipment. Common space 81 is a ballast tank.
