Fig. 2

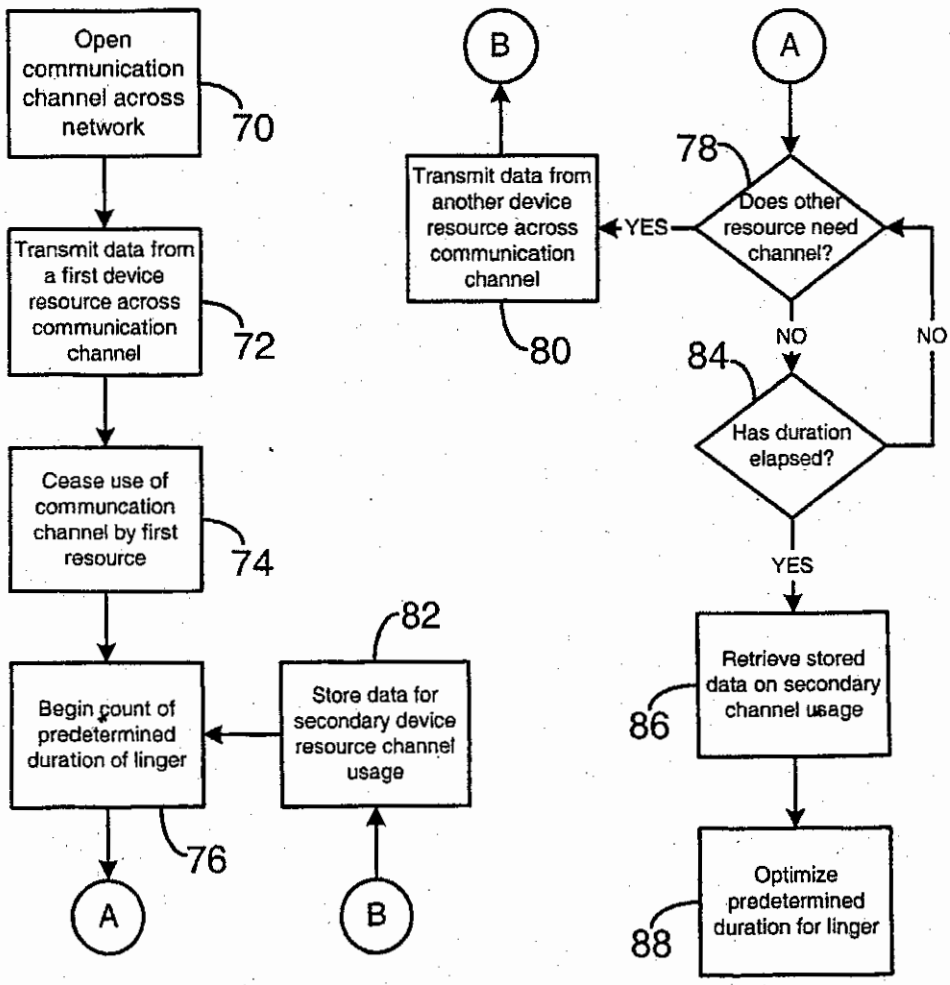

Open communication channel across network
70
Transmit data from a first device resource across communication channel
72
Cease use of communcation channel by first resource
74
Begin count of predetermined duration of linger
76
A
B
82
Store data for secondary device resource channel usage
B
Transmit data from another device resource across communication channel
80
YES
A
78
Does other resource need channel?
NO
NO
84
Has duration elapsed?
YES
Retrieve stored data on secondary channel usage
86
Optimize predetermined duration for linger
88
