(54) Title: METHOD AND SYSTEM FOR PROVIDING ASSISTANCE TO A USER DURING INSTALLING, MAINTAINING, AND/OR COMMISSIONING OF AN ELEVATOR SYSTEM

(57) Abstract: A method and a system (100) for providing assistance to a user during installing, maintaining, and/or commissioning of an elevator system (30) are disclosed. The method comprises creating (410) a digital representation, such as a digital twin, of the elevator system (30) and its physical environment, such as the current or the future physical environment. The method also comprises configuring (420) a display device (26), which comprises or is connected to an optical sensor (28), such as a digital camera, to run the digital representation, sensing, by the optical sensor (28), a portion (37) of the physical environment, and comparing said portion (37) to a corresponding portion of the digital representation, wherein said portion (37) is arranged to be visible on the display device (26).
