Claims

1. A flavour composition comprising
   a. at least one compound of formula (I)

(I)

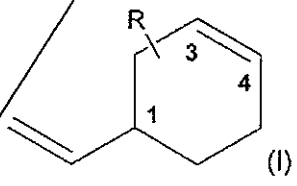

wherein R is carbonyl attached at C-1 or C-4; and

   b. at least one mint flavour.

2. A flavour composition according to claim 1, wherein the mint flavour is selected from peppermint oil, spearmint oil, *Mentha arvensis* oil, menthol, *l*-carvone, *l*-limonene and menthone, and mixtures thereof.

3. A flavour composition according to one of the preceding claims, comprising 4-vinylcyclohex-1-ene carbaldehyde.

4. An oral care composition comprising
   a. at least one compound of formula (I)

(I)

wherein R is carbonyl attached at C-1 or C-4; and

   b. at least one mint flavour.

5. An oral care composition according to claim 6, wherein the mint flavour is selected from peppermint oil, spearmint oil, *Mentha arvensis* oil, menthol, *l*-carvone, *l*-limonene and menthone, and mixtures thereof.

6. An oral care composition according to claim 4 or 5 comprising 4-vinylcyclohex-1-ene carbaldehyde.

7. A method of providing an enhanced mint flavour to a mint-flavoured composition adapted to be received orally, comprising adding to said composition a compound selected from 1-vinylcyclohex-3-ene carbaldehyde and 4-vinylcyclohex-1-ene carbaldehyd, or a mixture thereof.

Claims

1. A flavour composition comprising
   a. at least one compound selected from 4-vinylcyclohex-1-enecarbaldehyde and 1-vinylcyclohex-3-enecarbaldehyde, or a mixture thereof; and
   b. at least one mint flavour.

2. A flavour composition according to claim 1, wherein the mint flavour is selected from peppermint oil, spearmint oil, *Mentha arvensis* oil, menthol, *l*-carvone, *l*-limonene and menthone, and mixtures thereof.

3. A flavour composition according to one of the preceding claims, comprising 4-vinylcyclohex-1-ene carbaldehyde.

4. An oral care composition comprising
   a. at least one compound selected from 4-vinylcyclohex-1-enecarbaldehyde and 1-vinylcyclohex-3-enecarbaldehyde, or a mixture thereof; and
   b. at least one mint flavour.

5. An oral care composition according to claim 4, wherein the mint flavour is selected from peppermint oil, spearmint oil, *Mentha arvensis* oil, menthol, *l*-carvone, *l*-limonene and menthone, and mixtures thereof.

6. An oral care composition according to claim 4 or 5 comprising 4-vinylcyclohex-1-ene carbaldehyde.

7. A method of providing an enhanced mint flavour to a mint-flavoured composition adapted to be received orally, comprising adding to said composition a compound selected from 1-vinylcyclohex-3-ene carbaldehyde and 4-vinylcyclohex-1-ene carbaldehyde, or a mixture thereof.
