ANTI-TREM2 ANTIBODIES AND METHODS OF USE THEREOF

ABSTRACT

The invention is generally directed to methods and compositions that include antibodies, *e.g.*, monoclonal, chimeric, humanized antibodies, antibody fragments, *etc.*, that specifically bind a TREM2 protein, *e.g.*, a mammalian TREM2 and/or human TREM2. The methods provided herein find use in preventing, reducing risk, or treating an individual having dementia, frontotemporal dementia, Alzheimer's disease, Nasu-Hakola disease, or multiple sclerosis.
