(54) Title: AN INFORMATION MANAGEMENT SYSTEM

(57) Abstract: An information management system able to assist with the management and monitoring of a multiplicity of documents containing rights and/or obligations including due dates, arising out of a plurality of primary documents. The system includes a database adapted to store in an electronic and searchable format the plurality of primary documents, in addition to an electronic diary system linked to the database which records at least selected due dates arising out of the primary documents. There is also provided an access means for use in interrogating the database and diary system; and a display means for selectively displaying both details of the documents and the due dates.
