

1 Abstract

An artificial hair restorer, A hair restoring apparatus
and A hair restoring method

5 An artificial hair restorer has a trunk hair with plural restoring hairs fixed to
at a certain point of the trunk hair, a loop formed by folding one or two trunk hair(s) in
two through which the original hair(s) passes(pass) at one end, and a knot close to the
tying point end of the restoring hairs but opposite to the loop.

A hair restoring method comprises step of inserting one or plural of the original hair(s) into
the loop 3 of the trunk hair and then fixing it to the point in the vicinity of the original hair root.
