[CLAIMS]

[Claim 1]

An aqueous carbonated beverage comprising any one of:

0.01 w/v% or more of a LM pectin;

0.1 w/v% or more of alginic acid or a salt thereof; and

0.001 w/v% or more of gellan gum, wherein

the aqueous carbonated beverage has a pH of 3.5 to 7.0.

[Claim 2]

The aqueous carbonated beverage according to claim 1, wherein the salt of alginic acid is any one of sodium alginate and potassium alginate.

[Claim 3]

The aqueous carbonated beverage according to claim 1, wherein the gellan gum is deacylated gellan gum.

CLAIMS

[Claim 1]
An aqueous carbonated beverage comprising anyone of:
0_01 w/v% or more of a LM pectin;
0_1 w/v% or more of alginic acid or a salt thereof;
and
0_001 w/v% or more of gellan gum, wherein
the aqueous carbonated beverage has a pH of 3.5 to 7.0, and
LM pectin; alginic acid or a salt thereof; or gellan gum is dissolved in the aqueous carbonated beverage with no gelation.

[Claim 2]
The aqueous carbonated beverage according to claim 1, wherein the salt of alginic acid is anyone of sodium alginate and potassium alginate.

[Claim 3]
The aqueous carbonated beverage according to claim 1, wherein the gellan gum is deacylated gellan gum.
