(54) Title: STEERING DEVICE FOR ARTICULATED VEHICLE

Fig. 2

(57) Abstract: The invention relates to a steering device for mutually steering a first vehicle unit and a second vehicle unit of an articulated vehicle, which vehicle comprises a substantially vertical link shaft about which said vehicle units are pivotable, first and second steering elements arranged to mutually turn said vehicle units, wherein the steering device comprises a housing configuration arranged to form a supply space between said vehicle units. The invention also relates to an articulated vehicle with a steering device.
