(81) 指定国 (除另有指明, 要求每一种可提供的国家保护): AE, AG, AL, AM, AO, AT, AU, AZ, BA, BB, BG, BH, BN, BR, BW, BY, BZ, CA, CH, CL, CN, CO, CR, CU, CZ, DE, DJ, DK, DM, DO, DZ, EC, EE, EG, ES, FI, GB, GD, GE, GH, GM, GT, HN, HR, HU, ID, IL, IN, IR, IS,

(54) Title: METHOD FOR GENERATING TARGET CONTRACT AND TERMINAL DEVICE

(54) 发明名称: 一种生成目标合同的方法及终端设备

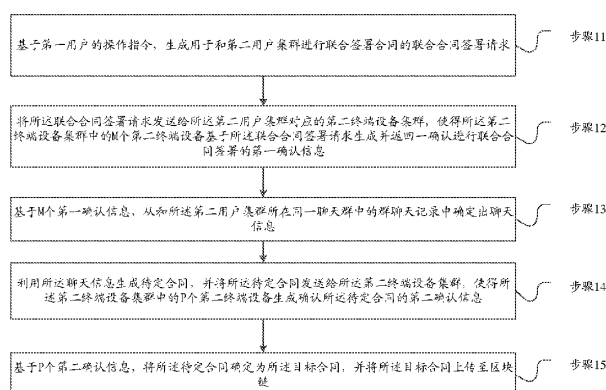

图 1

- S11 On the basis of an operation instruction of a first user, generate a joint contract signing request that is used for carrying out joint contract signature with a second user cluster
S12 Send the joint contract signing request to a second terminal device cluster corresponding to the second user cluster such that, on the basis of the joint contract signing request, M second terminal devices in the second terminal device cluster generate and return first acknowledgement information for acknowledging carrying out joint contract signature
S13 On the basis of the M pieces of first acknowledgement information, determine chat information in a group chat record in the same chat group in which the second user cluster is located
S14 Use the chat information to generate a contract to be determined, and send the contract to be determined to the second terminal device cluster such that P second terminal devices in the second terminal device cluster generate second acknowledgement information for acknowledging the contract to be determined
S15 On the basis of the P pieces of second acknowledgement information, determine the contract to be determined as a target contract, and upload the target contract to a blockchain

(57) Abstract: Disclosed in the present description are a method for generating a target contract and a terminal device: on the basis of an operation instruction of a first user, generating a contract signing request that is used for signing a contract with a second user cluster; then sending the contract signing request to a second terminal device cluster corresponding to a second user such that, on the basis of a joint contract signing request, M second terminal devices in the second terminal device cluster generate and return first acknowledgement information for acknowledging carrying out joint contract signature; on the basis of the M pieces of first acknowledgement information, determining chat information in a group chat record in the same chat group in which the second user cluster is located; using the chat

information to generate a contract to be determined, and sending the contract to be determined to the second terminal device cluster such that P second terminal devices in the second terminal device cluster generate second acknowledgement information for acknowledging the contract to be determined; and, on the basis of the P pieces of second acknowledgement information, determining the contract to be determined as a target contract, and uploading the target contract to a blockchain.

(57) 摘要: 本说明书公开了一种生成目标合同的方法及终端设备, 基于第一用户的操作指令, 生成用于和第二用户集群进行合同签署的合同签署请求; 然后将合同签署请求发送给第二用户对应的第二终端设备集群, 使得第二终端设备集群中的M个第二终端设备基于联合合同签署请求生成并返回一确认进行联合合同签署的第一确认信息; 基于M个第一确认信息, 从和第二用户集群所在同一聊天群中的群聊天记录中确定出聊天信息; 利用聊天信息生成待定合同, 并将待定合同发送给第二终端设备集群, 使得第二终端设备集群中的P个第二终端设备生成确认待定合同的第二确认信息; 基于P个第二确认信息, 将待定合同确定为目标合同, 并将目标合同上传至区块链。
