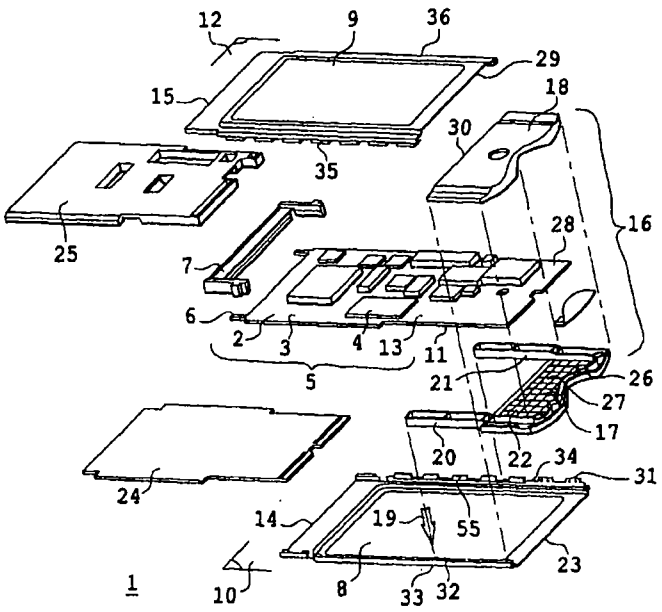
(54) Title: PACK PROVIDED WITH AN ANTENNA EXTENSION FOR ELECTRONIC CARD AND METHOD FOR THE ASSEMBLING OF THE PACK



(57) Abstract: Pack (1) provided with an antenna extension (16) for electronic cards (2), the antenna extension module being made of plastic materials and fixedly joined to an external shielding (8, 9) of this electronic card by a device comprising two arms (20, 21) irreversibly held on at least one of the shielding shells (8, 9) of the pack. The two shielding shells are then irreversibly joined together by means of projecting blades (31) and notches (32) of the borders (33, 34) of these shells, force-fitted to each other. This pack is preferably designed to receive a PCMCIA type card.
