(54) Title: DISPOSABLE DUST RECEPTACLE

(57) Abstract: A disposable dust receptacle (10) can be formed from a foldable blank. It has flaps (20, 22, 26, 28) that close an open end (21) so that the receptacle (10) closes in part automatically as the receptacle is removed from a cleaning machine. The receptacle can be constructed from a biodegradable material, and is most suitable for use with cleaning machines (60) having rotary brushes (62).
