(54) Title: FOOD IN SEALED CONTAINER, METHOD OF PRODUCING FOOD IN SEALED CONTAINER, USE OF FAT-SOLUBLE VITAMIN IN PRODUCTION OF FOOD IN SEALED CONTAINER, AND ORAL COMPOSITION

(57) Abstract: The present invention aims to provide a food in a sealed container containing a chicken extract-containing oral composition, and a method of producing the food in a sealed container, wherein an unpleasant odor (for example, fishy smell) from chicken extract obtainable by extraction from chicken meat and/or chicken bone is reduced or prevented. The present invention relates to a food in a sealed container containing a chicken extract-containing oral composition in a container, wherein the oral composition contains chicken extract and a fat-soluble vitamin, a head space of the container contains an odor component at a concentration of 100 ppm or less, and the concentration of the odor component is a total concentration of trimethylamine, butanedione, 3-methylbutanoic acid, and 2-methyl-3-furanthiol.
