

A NOVEL PROMOTER AND A METHOD FOR PRODUCING L-AMINO ACID USING THE SAME

[ABSTRACT]

The present disclosure relates to a novel promoter and a method for producing L-amino acids using the promoter, and more specifically, to a novel polynucleotide having promoter activity, a vector and a microorganism of the genus *Corynebacterium* comprising the polynucleotide, a method for producing L-amino acids and a fermented composition using the microorganism, and a fermented composition.
