Abstract

METHOD AND SYSTEM FOR ON-BOARD DETECTION OF SPEEDING OF A VEHICLE AND PAYMENT OF AN ASSOCIATED FINE

A method for vehicle speeding self-detection and payment of an associated fine, the method including: a) in an on-board processing device, determining a speed indication indicative of the speed of the vehicle operated by a user; b) determining a speed limit indication indicative of a speed limit associated with a location of the vehicle with respect to a road network; c) determining if the speed of the vehicle exceeds the speed limit using the speed indication and the speed limit indication; d) in response to determining that the speed limit has been exceeded, determining a payment amount indicative of a discounted fine for exceeding the speed limit; and, e) causing the payment amount to be paid from an account of the user.
