CLAIMS

1. A solid composition comprising dimethyl sulfide and dextrin,

wherein a content of dimethyl sulfide in the composition is 2.1 μg or more per gram of the composition (2.1 μg/g),

wherein the composition comprises dextrin having a molecular weight of 50,000 or more, and

wherein the composition comprises linear dextrin.

2. The composition according to claim 1, wherein a proportion of the dextrin having a molecular weight of 50,000 or more in molecular weight distribution of the composition is 5 to 35%.

3. The composition according to claim 1 or 2, wherein a proportion of the dextrin having a molecular weight of 50,000 to 200,000 in molecular weight distribution of the composition is 2 to 30%.

4. The composition according to any one of claims 1 to 3, wherein a proportion of dextrin having a molecular weight of from 200,000 to 350,000 in molecular weight distribution of the composition is 0.3 to 6%.

5. The composition according to any one of claims 1 to 4, wherein a proportion of dextrin having a molecular weight of from 250,000 or more in molecular weight distribution of the composition is 0.9 to 10%.

6. The composition according to any one of claims 1 to 5, wherein a proportion of dextrin having a molecular weight of 350,000 or more in molecular weight distribution of the composition is 0.2 to 4%.

7. The composition according to any one of claims 1 to 6, wherein the composition comprises two or more kinds of dextrin.

8. The composition according to any one of claims 1 to 7, wherein the composition further comprises cyclic dextrin.

9. The composition according to any one of claims 1 to 8, further comprising one or more aroma components selected from the group consisting of β-ionone, α-ionone, β-cyclocitral, (z)-3-hexenol, 1-penten-3-ol, hexanal, and nerolidol.

10. The composition according to any one of claims 1 to 9, wherein the composition is a powder composition.

11. The composition according to any one of claims 1 to 10, wherein the composition comprises a tea leaf extract.

12. The composition according to claim 11, wherein the tea leaf extract is a tea leaf extract of sencha.

13. A food or drink comprising the composition according to any one of claims 1 to 12.

14. The food or drink according to claim 13, wherein the food or drink is a beverage.

15. The food or drink according to claim 14, wherein the food or drink is a tea beverage.

16. A food or drink comprising dimethyl sulfide and dextrin,

wherein a content of dimethyl sulfide in the food or drink is 20.3 ppb (w/w) or more per 1.0% solid content (Brix),

wherein the food or drink comprises dextrin having a molecular weight of 50,000 or more, and

wherein the composition comprises linear dextrin.
