ABSTRACT

GAS CURTAIN DEVICE FOR FRONT OPENING UNIFIED POD

A gas curtain device for a front opening unified pod has a casing. The casing has an interior space. The interior space defines a transverse gas space, a curved gas space and a vertical gas space. At least one first gas guide plate is disposed in the transverse gas space and/or the curved gas space. The first gas guide plate has a plurality of first gas guide holes. A second gas guide plate is disposed at one end of the vertical gas space. The second gas guide plate has a plurality of second gas guide holes.
