(54) Title: IMAGE ARCHIVE DISC

FIG. 13

(57) Abstract: Method (200, 220) and apparatus (130, 300) for storing archive images (102) to a substrate (100), such as a rotatable optical disc. In some embodiments, the substrate stores a plurality of archived images in a human detectable form on a surface (150, 152, 154, 156) of the substrate and further stores control data associated with the archived images to facilitate optical recovery of said human detectable images from the surface.
