(54) Title: A BLADE ASSEMBLY FOR A MAST CONNECTED TO A WIND TURBINE, A MAST OF A WIND-POWER PLANT
AND USE OF A BLADE ASSEMBLY

Fig. 1a

(57) Abstract: A blade assembly (1) for a mast (5) connected to a wind turbine. The blade assembly comprises a primary blade (10) comprising a primary attachment part (12) configured to be attached to the mast (5), and a primary airfoil (16) protruding from the primary attachment part, and a biplane blade (20) connected to the primary blade. The biplane blade extends between a first connection (22) and a second connection (24) to the primary blade. The biplane blade comprises a biplane airfoil (26) between the first connection and the second connection. The blade assembly further comprises a primary strut (30) configured to be connected between the primary blade and the mast.
