

ABSTRACT

BIARYL DERIVATIVE, PREPARATION METHOD THEREFOR AND
PHARMACEUTICAL USE THEREOF

Disclosed are a biaryl derivative having a structure represented by Formula (I) and inhibitory activity against PD-1/PD-L1 interaction, a preparation method thereof, and a pharmaceutical application thereof. The series of compounds of the present invention can be widely applied to the preparation of a medicament for preventing and/or treating cancer or tumors, immune-related diseases and disorders, contagious diseases, infectious diseases or metabolic diseases that are mediated by a PD-1/PD-L1 signaling pathway, and shows promise for the development of a new generation of PD-1/PD-L1 inhibitors.
