CLAIMS

1. A composition mixed with an extraction liquid of Artemisia absinthium, for preventing a human body from being infected with a human immunodeficiency virus,

wherein the extraction liquid is produced by direct distillation using ethanol as an extracting medium.

2. The composition according to Claim 1, wherein

the extracting medium contains 98 vol.% or more ethanol,

the rest comprises water.

3. A composition mixed with an extraction liquid of Artemisia absinthium, for preventing a human body from being infected with a human immunodeficiency virus,

wherein the extraction liquid is produced by leaching using 1,3-butylene glycol as an extracting medium.

4. The composition according to Claim 3, wherein

the extracting medium is 100% of 1,3-butylene glycol.

5. The composition according to any one of Claims 1 to 4, wherein the composition is a microbicide selected from a group consisting of a lotion, a gel, a sol, and a cream.

6. The composition according to Claim 5, wherein the composition is one to be applied to a skin or a mucous membrane.

7. The composition according to Claim 5, wherein the composition is

one to be applied to a penis of a human, or inside of a vagina or a vulva of a human.

8. A condom or a dental dam coated with a composition according to any one of Claims 1 to 4.
