

RESOURCE SHARING METHOD, APPARATUS, AND DEVICE

ABSTRACT

Embodiments of the present specification disclose a resource sharing method, apparatus, and device, where the method includes: determining sharing information about a resource with at least one blockchain node, where the blockchain node includes one of a first blockchain node and a second blockchain node, the first blockchain node is a sharing blockchain node of the resource, and the second blockchain node is a source blockchain node of the resource; and sending the sharing information to a blockchain network including the first blockchain node and the second blockchain node.
