(54) Title: COMBINATION THERAPY OF KRAS INHIBITOR AND TREG-DEPLETING AGENT

FIG. 29A

3LL orthotopic model - survival experiment

(57) Abstract: In some aspects, the present disclosure is directed to a method of treating a tumor in a subject in need thereof comprising administering a KRAS inhibitor and a regulatory T cell (Treg)-depleting agent to the subject. In some aspects, the present disclosure is further directed to methods of reducing the number of Treg cells (Tregs) in a tumor environment (TME) in a subject who receives a therapy with a KRAS inhibitor comprising administering a Treg-depleting agent to the subject. In some aspects, the present disclosure is further directed to methods of treating a tumor in a subject who is identified as having an increased number of Tregs in a TME, or as having a spatial cellular community comprising Tregs in a TME.
