(54) Title: USER INTERFACE FOR APPLICATION MANAGEMENT FOR A MOBILE DEVICE

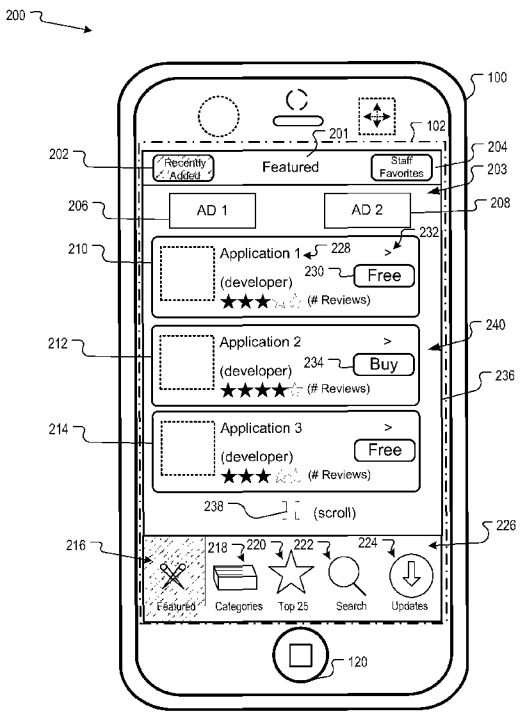

FIG. 2

(57) Abstract: This specification describes technologies relating to user interfaces for mobile devices. In general, one aspect of the subject matter described in this specification can be embodied in methods that include the actions of receiving a touch input to access an application management interface on a mobile device; presenting an application management interface; receiving one or more inputs within the application management interface including an input to install a particular application; installing the selected application; and presenting the installed application.
