FIG. 1

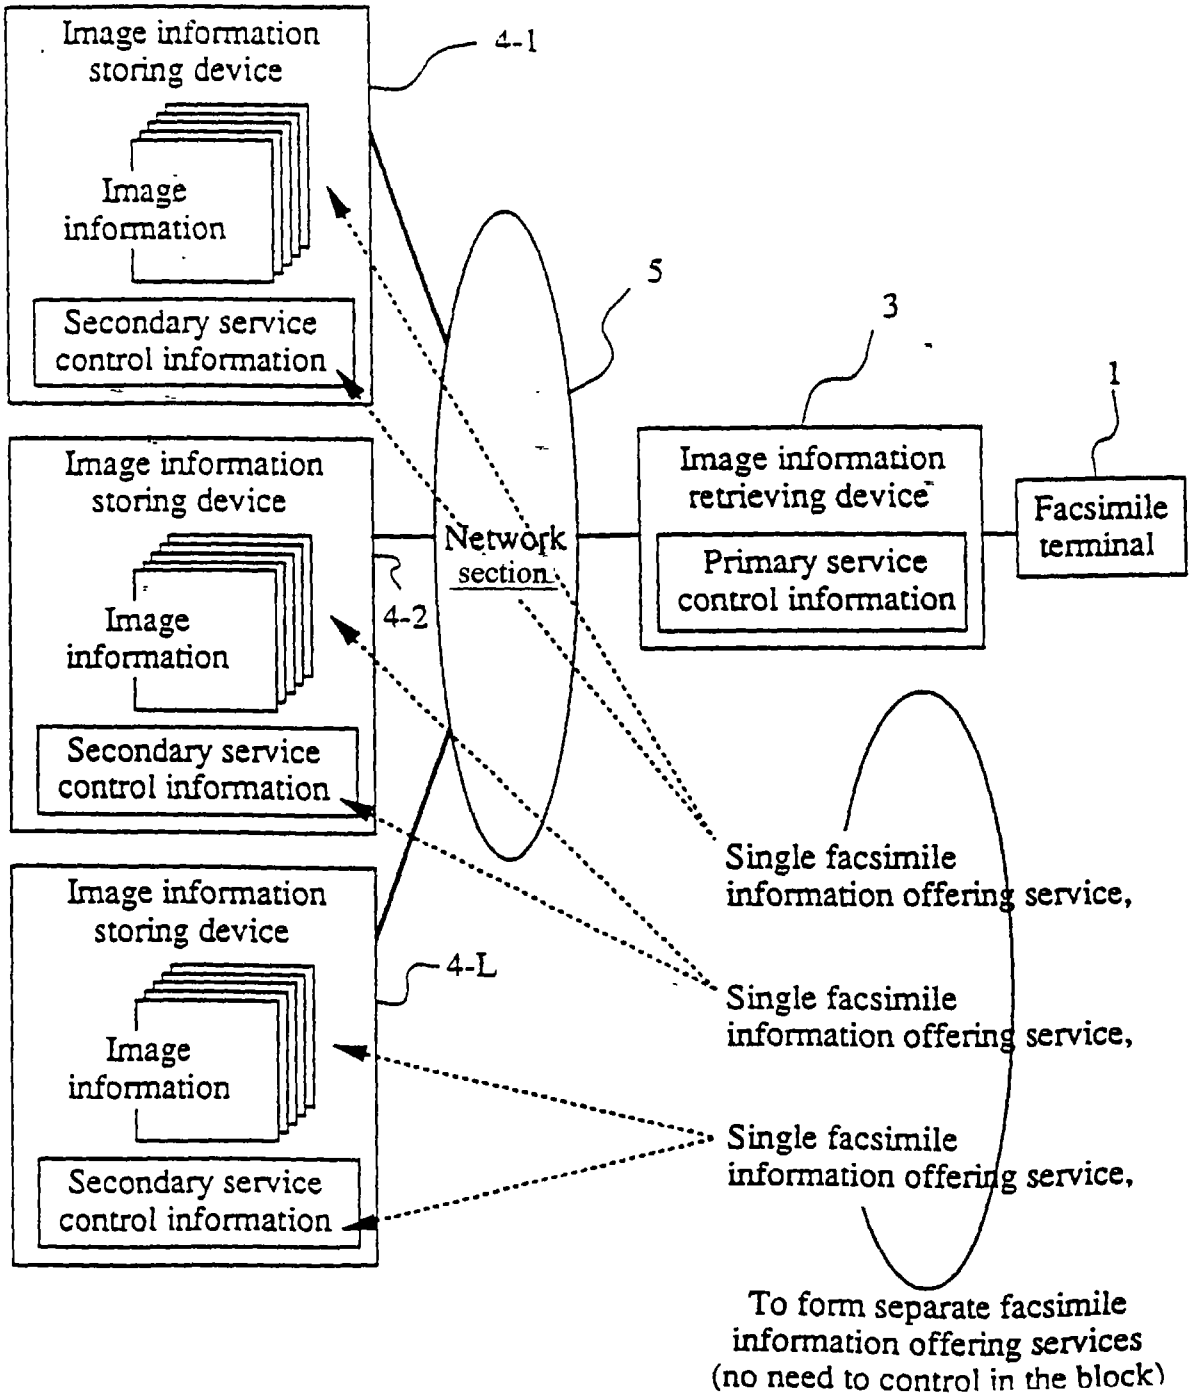

FIG. 8

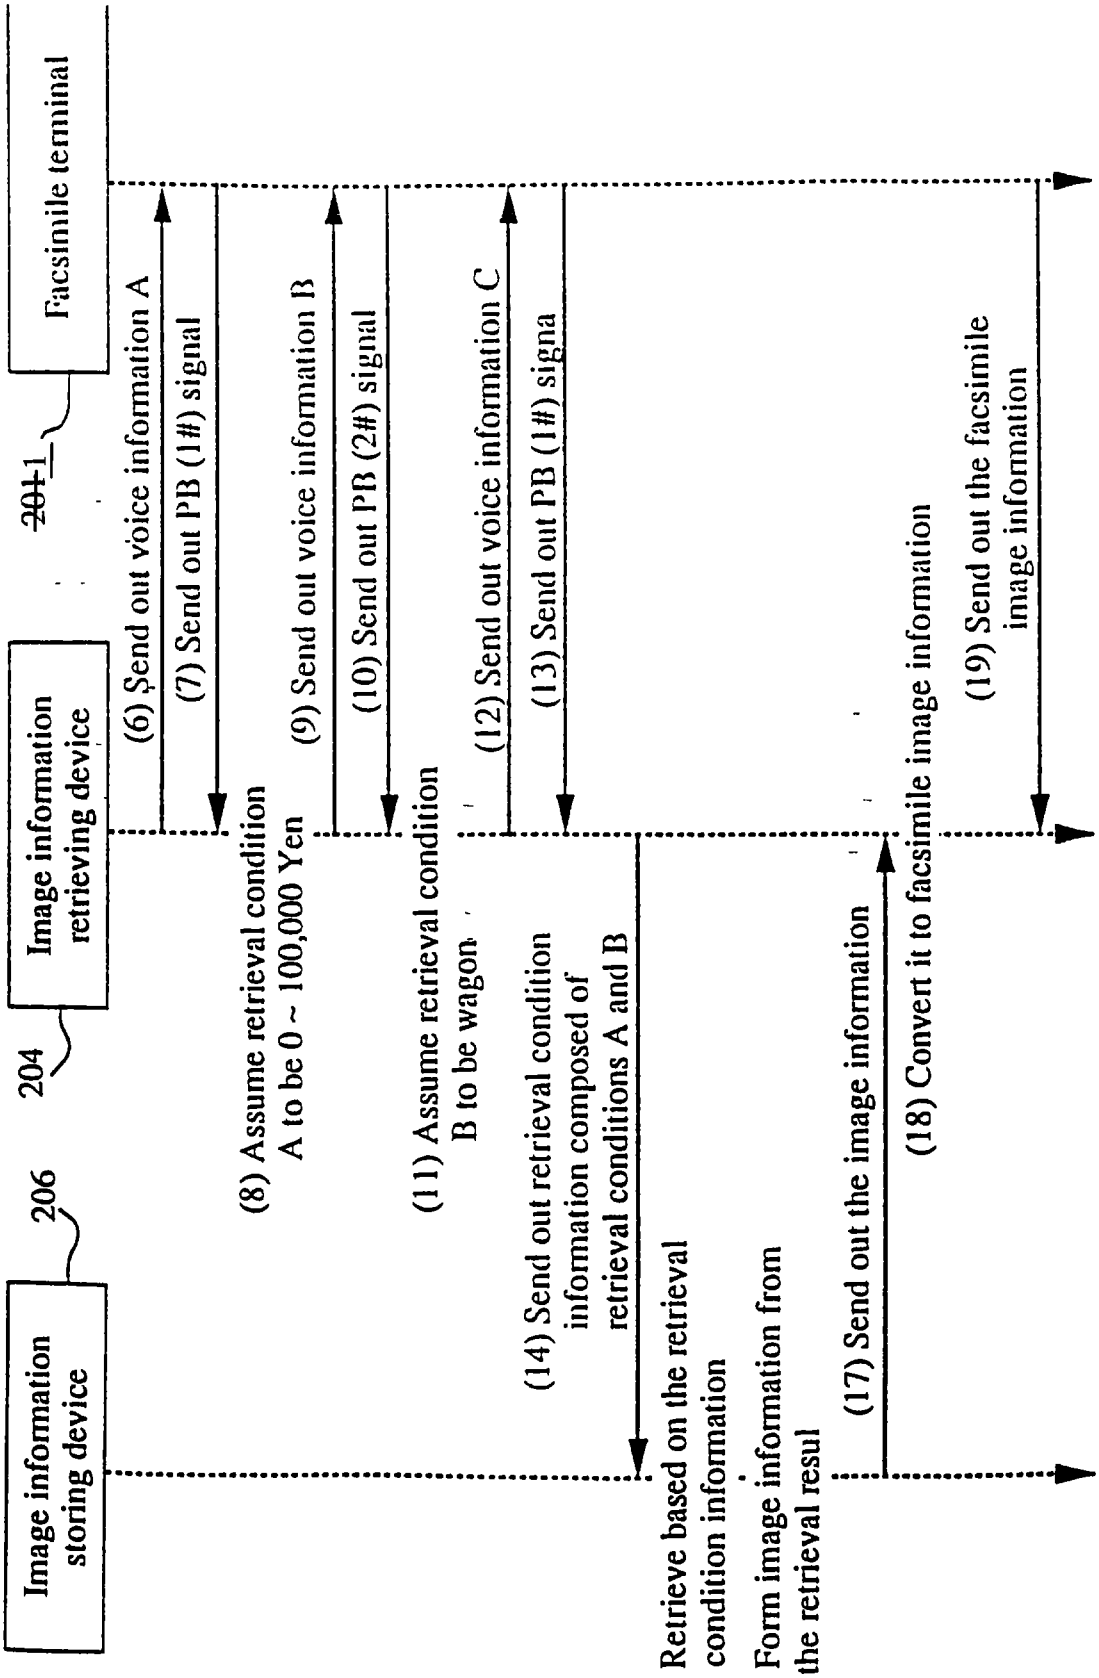

Image information storing device
206
Image information retrieving device
204
Facsimile terminal
201
(6) Send out voice information A
(7) Send out PB (1#) signal
(8) Assume retrieval condition A to be 0 ~ 100,000 Yen
(9) Send out voice information B
(10) Send out PB (2#) signal
(11) Assume retrieval condition B to be wagon
(12) Send out voice information C
(13) Send out PB (1#) signa
(14) Send out retrieval condition information composed of retrieval conditions A and B
(15) Retrieve based on the retrieval condition information
(16) Form image information from the retrieval resul
(17) Send out the image information
(18) Convert it to facsimile image information
(19) Send out the facsimile image information

FIG. 14

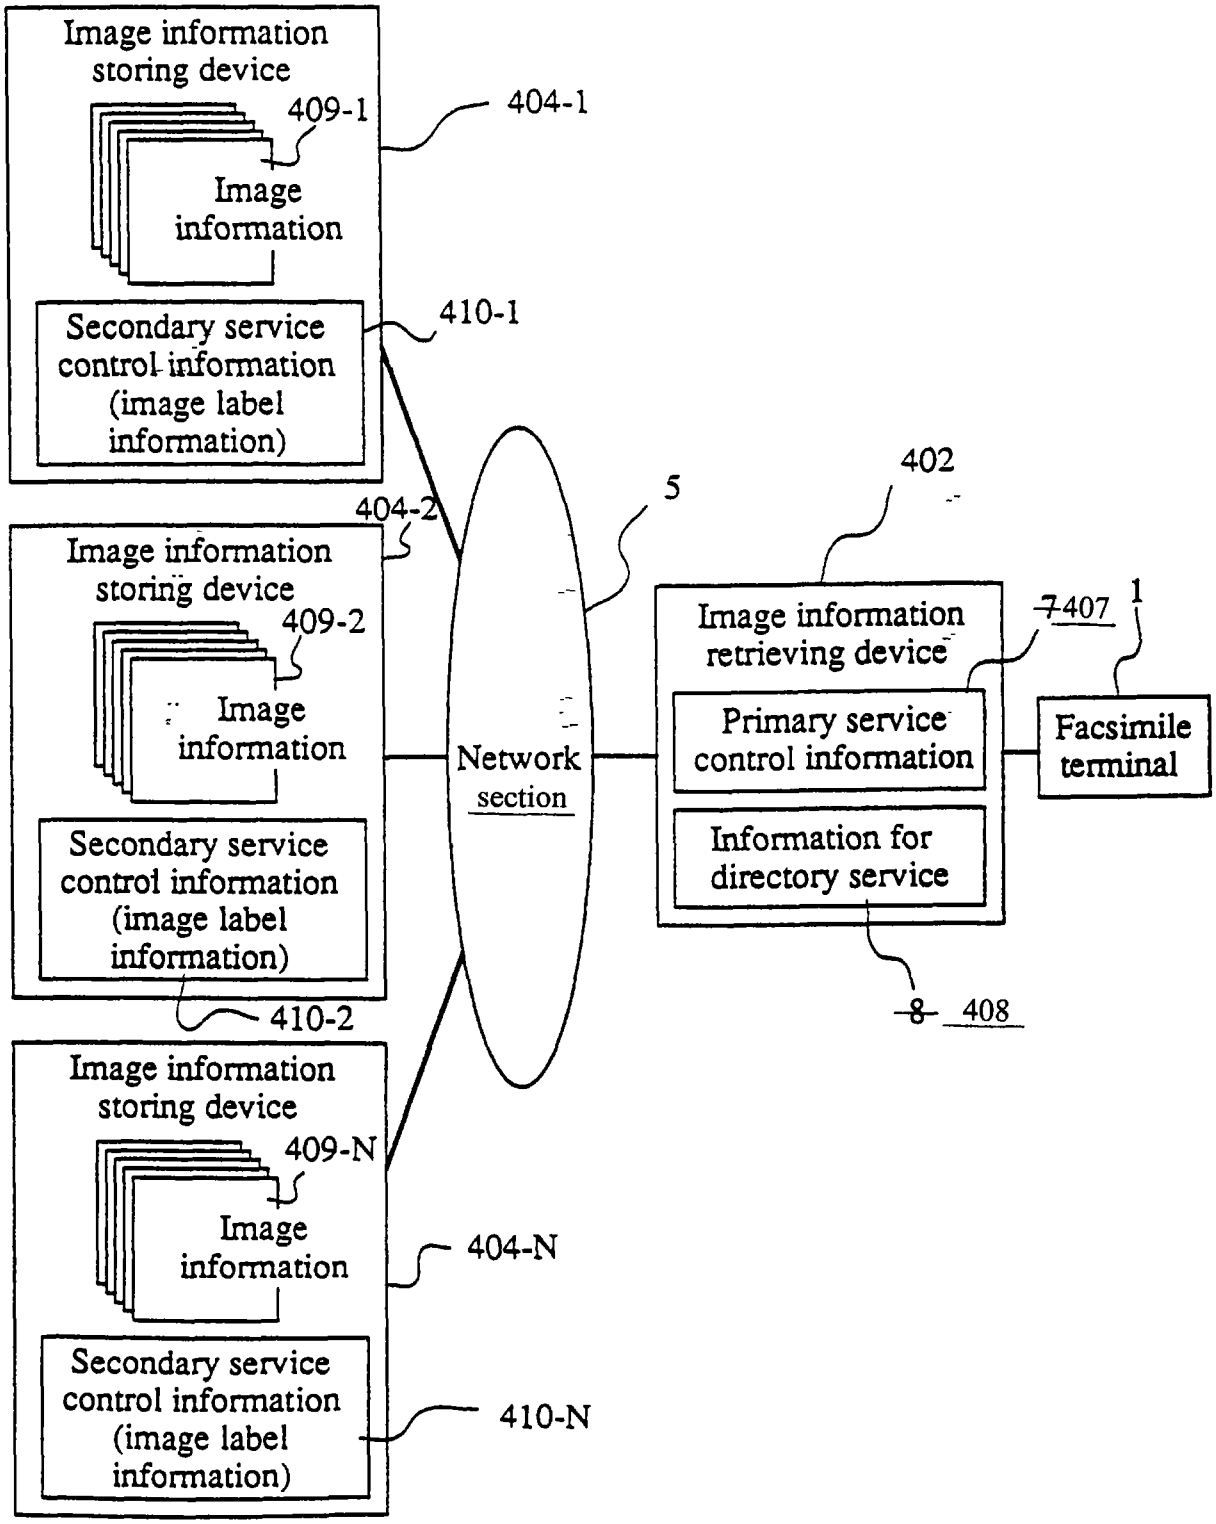

Image information storing device
409-1
Image information
404-1
Secondary service control information (image label information)
410-1
404-2
Image information storing device
409-2
Image information
Secondary service control information (image label information)
