

ABSTRACT

Provided are an oxygen-containing fused tricyclic derivative, and a preparation method therefor and a use thereof. Specifically, provided is a compound as shown in formula (I) or a pharmaceutically acceptable salt thereof. The compound as shown in formula (I) can be used as a cyclin-dependent kinase inhibitor for preventing and/or treating diseases related to cyclin-dependent kinase. The definition of each substituent in formula (I) is as recited in the description.
