

FIG. 1

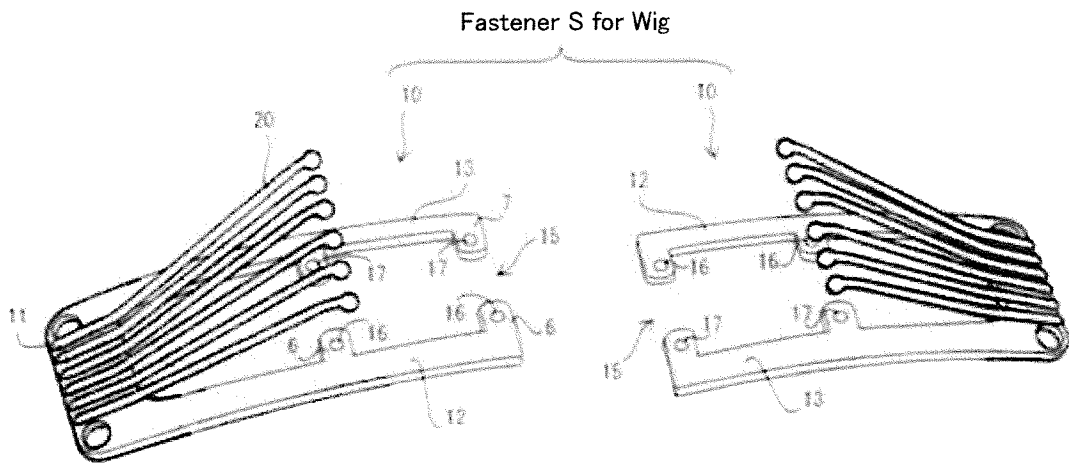

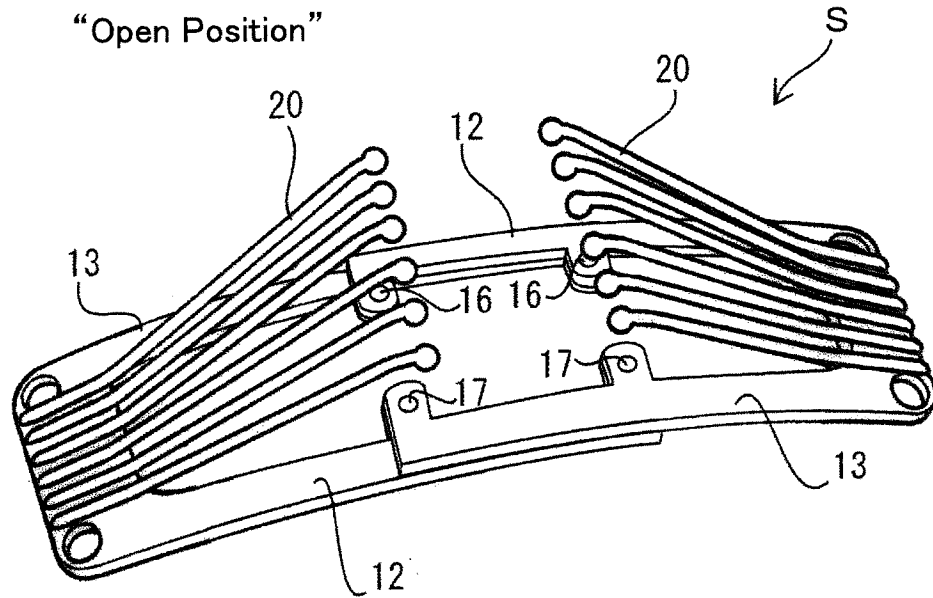

FIG. 2

(A) "Open Position"

(B) "Closed Position"

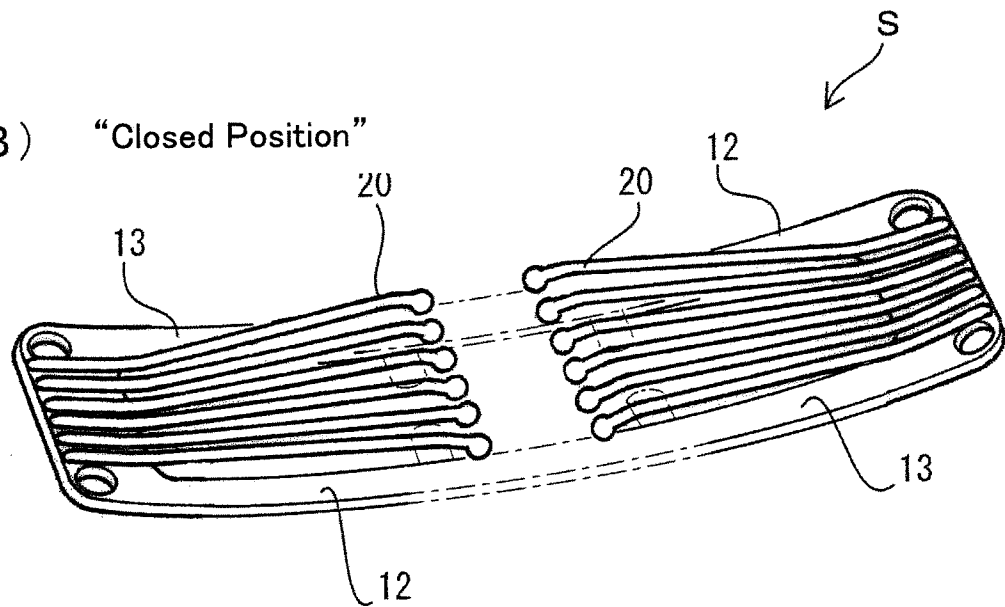

FIG. 3

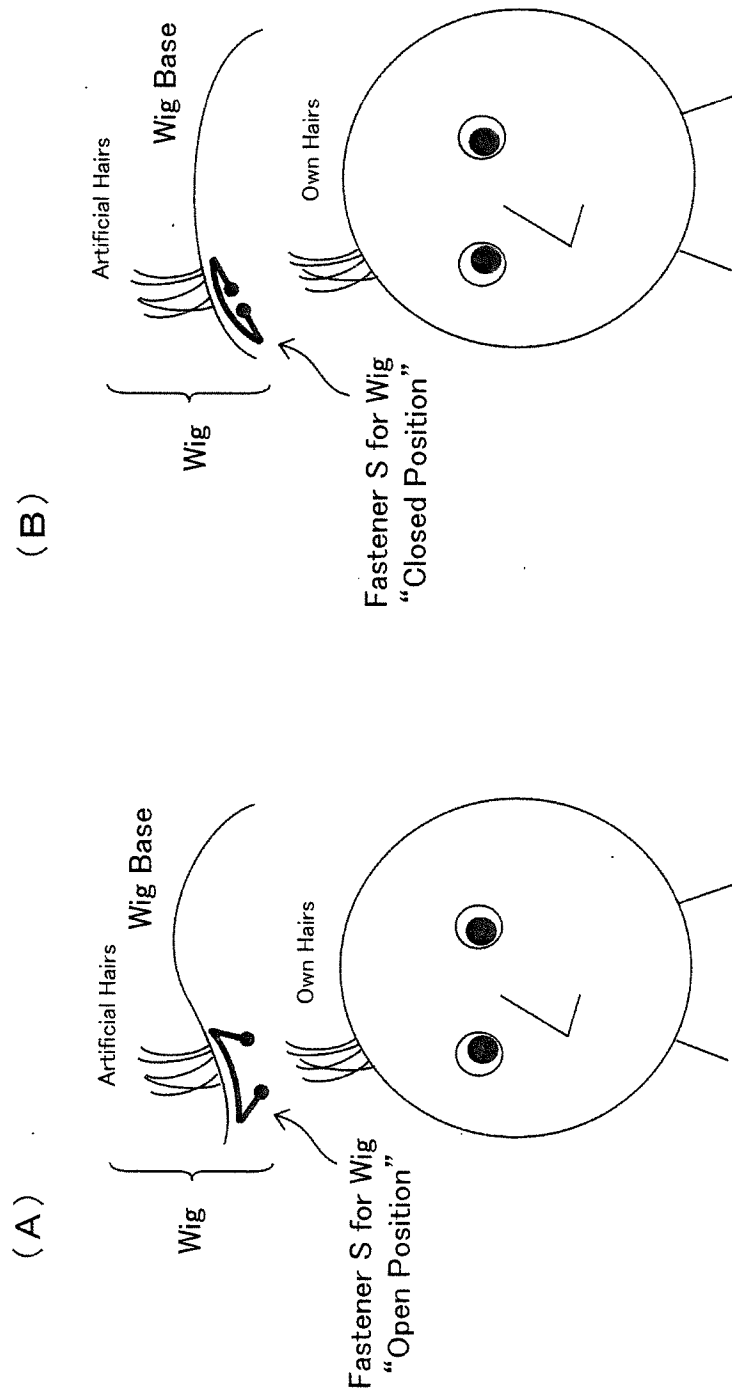

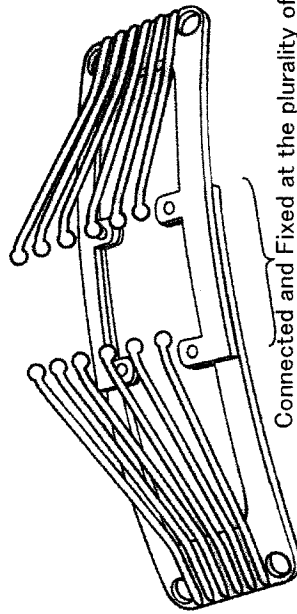

FIG. 4

(A) Present Invention

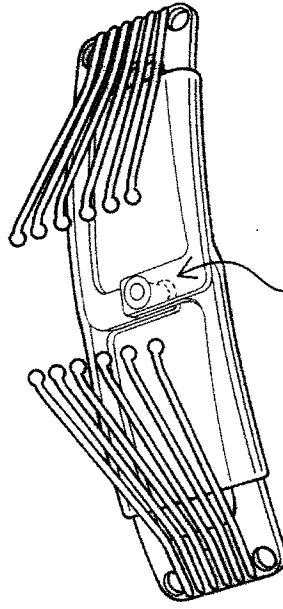

(B) Prior Example

Connected and Fixed at the plurality of points
located apart from each other under
overlapped condition

Both high integrity and high elastic
deformation property

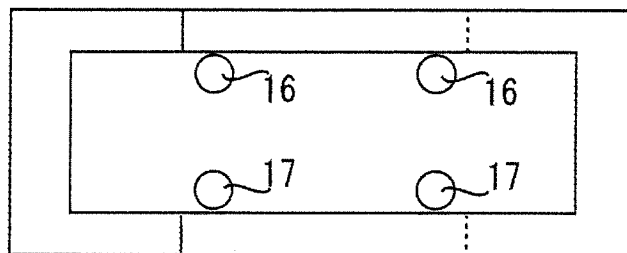

Connected and fixed at one central point

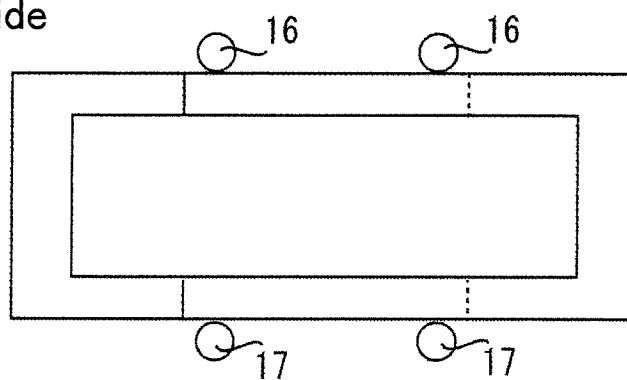

Both members are highly independent.

FIG. 5

(A) Inside

(B) Outside

(C) Within Member

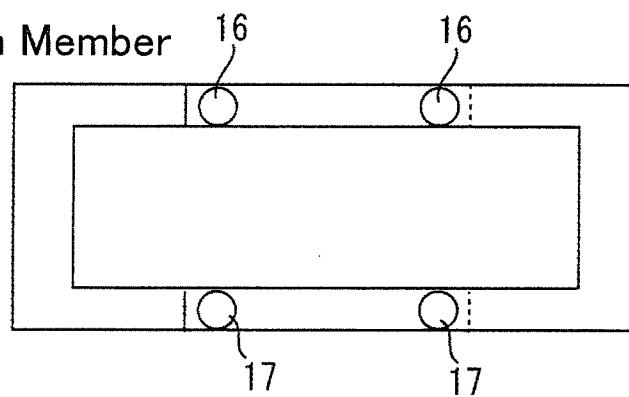

FIG. 6
