(54) **Title**: PAC-1 COMBINATION THERAPY

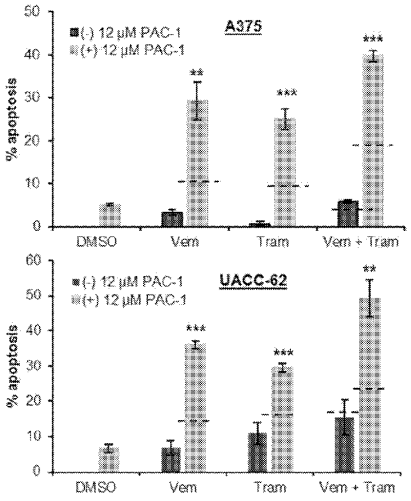

Fig. 3A

(57) **Abstract**: The invention provides compositions and methods for the induction of cancer cell death. The compositions and methods of using them include use of compositions in therapy for the treatment of cancer and for the selective induction of apoptosis in cancer cells. The drug combinations described herein can be synergistic and can have lower neurotoxicity effects than the same amounts of other compounds and combinations of compounds, and can be effective when a particular cancer has become resistant to previously administered therapies.
