

COMPOSITE PACKAGING ARRANGEMENT FOR CONTACT LENSES

1 ABSTRACT OF THE DISCLOSURE

 A composite or secondary packaging arrangement
for the containment of hydrophilic contact lenses in a
5 sterile aqueous solution. More specifically disclosed
is a composite or secondary packaging arrangement
wherein pluralities of disposable hydrophilic contact
lenses possessing different optical characteristics or
prescriptions are contained in one or more specific
10 packaging arrays which are then collectively housed in
separate paired box-like compartments or carton
structures in a preselected customized manner so as to
provide specified or essentially measured supplies of
differing contact lenses for prescribed use in both eyes
15 of a consumer over a predetermined period of time.
