

## Dairy Product-like Processed Food and Method of Manufacturing The Same

## ABSTRACT

A dairy product-like processed food which enables rice to be consumed and a  
5 method of manufacturing the same are provided. The dairy product-like processed food  
contains rice. This processed food may be a processed food in which rice slurry  
containing ground rice and a dispersion medium, rice flour, glutinous rice flour, or  
top-grade rice flour is mixed therein. The method of manufacturing the dairy  
product-like processed food includes a step of wet-grinding rice, and a step of mixing the  
10 rice slurry produced by the wet grinding with a predetermined raw material of the  
processed food.
