(54) **Title**: AZAINDOLE COMPOUNDS FOR TREATMENT OF CENTRAL NERVOUS SYSTEM DISORDERS

(I)

(57) **Abstract**: Azaindole derivative compounds are described. The compounds have an optionally substituted azaindole core linked to a carbocyclic ring having at least one nitrogen atom and further bound to an optionally substituted aryl ring. A process for preparing these compounds, compositions comprising them, and methods of using them to treat disorders of the central nervous system are described.
