WHAT IS CLAIMED IS:

1. A candle comprising:

a container in which an upper portion is an opening portion;

a candle body that is housed within the container and in which a wick is provided; and

a decorative combustion material that is filled within the container while enclosing a periphery of the candle body to perform a function of a decoration portion when the candle body does not burn and that exhibits a visual effect and diffuses a scent while burning when the candle body burns.

2. The candle of claim 1, wherein the container is transparently or translucently formed.

3. The candle of claim 1, wherein a candle body or at least two candle bodies are provided within the container.

4. The candle of claim 1, wherein the container and the candle body have a cross-sectional shape of at least one selected from a circle, a triangle, a quadrangle, a polygon, a heart shape, a star shape, a moon shape, a sun shape, a person shape, a plant shape, and an animal shape.

5. The candle of claim 1, wherein the decorative combustion material comprises a first decorative combustion material that is formed in a

~~piece form and a second decorative combustion material that is formed in a~~ grain form.

6. The candle of claim 5, wherein the first and second decorative combustion materials have several colors.

7. The candle of claim 6, wherein the first and second decorative combustion materials contain a spice.

8. The candle of claim 7, wherein the spice comprises a natural spice or an artificial spice.

9. The candle of claim 5, wherein the first decorative combustion material has a diameter of 0.5 cm to 7 cm and a thickness of 0.2 cm to 10 cm, and the second decorative combustion material has a circular shape or an oval shape having a cross-sectional diameter of 0.1 mm to 5 mm.

10. The candle of claim 8, wherein the spice comprises at least one kind of spice that is selected from chamomile incense, lavender incense, rosemary incense, coriander incense, eucalyptus incense, basil incense, bergamot incense, citronella incense that repels insects and mosquitoes, phytoncide incense, marjoram incense, melissa incense, and botanica spice.

~~11. The candle of claim 5, wherein the first decorative combustion~~

~~material has at least one shape that is selected from shapes of an animal, a~~ plant, an insect, a fruit, an object, and fish and shellfish.

12. The candle of claim 1, wherein an upper portion of the decorative combustion material is covered with a cover.

13. The candle of claim 12, wherein the cover can be burned.

14. The candle of claim 12, wherein the cover has an insertion hole that may be inserted into the candle body.

~~15. The candle of claim 12, wherein the cover has a printing surface.~~

~~16.~~ 1. A candle, comprising:

a container in which an upper portion is an opening portion;

a candle body that is received within the container and in which a wick is provided; and

a decorative combustion material that is received within the container while enclosing a periphery of the candle body to perform a function of a decoration portion when the candle body does not burn and that exhibits a visual effect and diffuses a scent while burning when the candle body burns,

wherein the decorative combustion material is divided into at least two in a length direction, and the respective divided decorative combustion materials contain different spices with different colors.

~~17.~~ 2. A candle, comprising:

a candle body in which a wick is provided; and

a decorative combustion material that is located to enclose a periphery of the candle body to perform a function of a decoration portion when the candle body does not burn and that exhibits a visual effect and diffuses a scent while burning when the candle body burns,

wherein the decorative combustion material is divided into at least two in a length direction, and the respective divided decorative combustion materials contain different spices with different colors.

~~18. A method of assembling a candle, the method comprising:~~

selecting a container in which an upper portion is an opening portion and that has a predetermined shape;

selecting a candle body in which a wick is provided and that contains a predetermined spice while having a predetermined color and shape;

receiving the selected candle body within the container;

selecting a decorative combustion material that contains a predetermined spice while having a predetermined color and shape; and

fixing the candle body by filling the selected decorative combustion ~~material within the container.~~

[CLAIMS]

1. A candle, comprising:

a container in which an upper portion is an opening portion;

a candle body that is received within the container and in which a wick is provided; and

a decorative combustion material that is received within the container while enclosing a periphery of the candle body to perform a function of a decoration portion when the candle body does not burn and that exhibits a visual effect and diffuses a scent while burning when the candle body burns,

wherein the decorative combustion material is divided into at least two in a length direction, and the respective divided decorative combustion materials contain different spices with different colors.
