(54) Title: SYSTEM AND METHOD FOR CONNECTING A POWER CONVERTER TO A LAND GRID ARRAY SOCKET

TOP VIEW (UNASSEMBLED)

(57) Abstract: A land grid array (LGA) socket is connected to a power converter using compression contact technology eliminating the need for an edge-card connector typically required in such applications. The LGA socket is mounted to the power converter in a single direction of assembly (i.e., the vertical axis).

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
