(54) **Title**: A METHOD OF MANAGING AN INSURANCE SCHEME AND A SYSTEM THEREFOR

Fig. 1

(57) **Abstract**: A method and system for managing an insurance scheme includes receiving claim data from an insured person, the claim data including information pertaining to the occurrence of an insured event and the amount of a claim to an insurer. The claim data is analysed to determine a total amount payable to the insured person. An amount to be paid to the insured person from a life insurance fund of the insured person is calculated and an amount to be paid to the insured person from the insurer is calculated wherein the amount paid from the life fund and the amount paid from the insurer equal the total amount payable.
