(54) Title: OVERVOLTAGE PROTECTION MAGAZINE FOR A DEVICE OF TELECOMMUNICATIONS TECHNOLOGY

(54) Bezeichnung: ÜBERSpannungsschutzmagazin für eine Einrichtung der Telekommunikationstechnik

(57) Abstract: The invention relates to an overvoltage protection magazine (1) for a device of telecommunications technology, which comprises a housing (2), a printed circuit board (3), a plurality of overvoltage arresters (4) and at least one connection to ground (6). The overvoltage arresters (4) are disposed on the printed circuit board (3) and are led to contact pads (8) disposed on the printed circuit board (3) via conductor tracks. In the plugged-in state of the device, said contact pads electrically contact the contacts of the telecommunications device, the overvoltage arresters (4) being arranged in series.

(57) Zusammenfassung: Die Erfindung betrifft ein Überspannungsschutzmagazin (1) für eine Einrichtung der Telekommunikationstechnik, umfassend ein Gehäuse (2), eine Leiterplatte (3), mehrere Überspannungsableiter (4) und mindestens einen Erdkontakt (6), wobei die Überspannungsableiter (4) auf der Leiterplatte (3) angeordnet sind und über Leiterbahnen zu auf der Leiterplatte (3) angeordneten Kontaktpads (8) geführt, die im gesteckten Zustand in elektrischen Kontakt mit Kontakten der Einrichtung für Telekommunikation kommen, wobei die
