(54) Title: RECOMBINANT CCN DOMAIN PROTEINS AND FUSION PROTEINS

(57) Abstract: The present invention relates to recombinant proteins having an amino acid sequence corresponding to or related to the thrombospondin type 1 repeat homology domain of a member of the CCN family proteins and the use thereof. Furthermore, the present invention relates to fusion proteins comprising an amino acid sequence corresponding to or related to the thrombospondin type 1 repeat homology domain of a member of the CCN family proteins combined with a fusion partner and optionally a linker region. Also, novel protease resistant Fc-fragments are disclosed herein.
