

ASSEMBLY OR SET OF DIFFERENT COLOR INKS AND AN
ASSEMBLY OF WRITING INSTRUMENTS

ABSTRACT OF THE DISCLOSURE

An assembly or set of different color
5 inks (10), capable of changing their color by
reduction, comprising at least one ink (12)
including a reducing agent for the mentioned
inks. When one of said reducible inks (10) is
contacted with that ink (12) bearing the
10 reducing agent, the reducible ink (10) is
reduced, changing its color, and juxtaposition
or combination (11b) of the reduced ink color
with the reducing ink color generates a
different color for each ink. These inks are
15 useful for composing polychromatic figures,
designs, etc. for didactic and artistic purposes
and the like, with writing or drawing
instruments, such as fiber pens.
